

PROOF OF CONCEPT (POC) ANNOUNCEMENT FOR  
MATERIAL HANDLING EQUIPMENT INFORMATION SYSTEM (MHE-IS)

---

No.23/1/UKPS/PENG/B June 17, 2021

Bank Indonesia will conduct the Proof of Concept (PoC) for Material Handling Equipment Information System (MHE-IS) with the following explanation:

I. The Purpose

The purpose of the PoC is to assess the availability and ability of the Information System of MHE products in the market that can be integrated with Bank Indonesia information systems.

II. The requirements for companies that will participate in the PoC are as follows:

- a. Having a legal entity status as “Perseroan Terbatas” or other legal entity.
- b. For a foreign company is required to have a *business partner* in Indonesia.
- c. As a manufacturing / developer of the main component system for Automated Storage / Retrieval System (ASRS) or Automated Guided Vehicle (AGV) or MHE-IS.
- d. Has implemented similar product to MHE-IS and has been used in banking industry, preferably in central bank.

III. Companies that are interested to participate in the procurement of MHE-IS for Bank Indonesia’s currency management facilities are required to take part and pass the POC test.

IV. *Technical briefing* will be held on June 23, 2021.

V. PoC will be started on June 28, 2021 to July 9, 2021.

VI. Registration of PoC Participants will be opened on June 17-21, 2021 by submitting an application letter to the Special Unit for the Development of SPU, DC, and BRS.
